Matrix42 Remote Support for SmartCards

Matrix42 Remote Support for SmartCards extends the Matrix42 Remote Solution with capabilities to redirect physical SmartCards through the Matrix42 Remote infrastructure to the target machine.

Description

Matrix42 Remote Support for SmartCards extends the Matrix42 Remote Solution with capabilities to redirect physical SmartCards through the Matrix42 Remote infrastructure to the target machine.

This functionality allows customers to fully enable SmartCard access control also for services that are not directly connected to a SmartCard reader!

This Product requires the Matrix42 Remote License
