

## MATRIX42 MARKETPLACE PRODUCTS

# DRACOON Connector

The **DRACOON Connector** is indispensable for companies that want to use the services of the data provider DRACOON with the advantages of Matrix42.

## Description

### Labtagon DRACOON Connector

The **DRACOON Connector** is indispensable for companies that want to use the services of the data provider DRACOON with the advantages of Matrix42.

The DRACOON Connector provides a communication interface between the Matrix42 Workspace Management and the DRACOON API. This means that data rooms, user rights, user accounts, etc. can be ordered centrally and automatically via services.

Simplify the entire ordering process for users. Data rooms, permissions or user accounts are requested via the familiar Matrix42 Service Portal. This saves users the need to familiarise themselves with another user interface.

## The advantages at a glance

- No need to familiarise yourself with yet another new process or service portal, thus saving time and money.
- Comprehensible (Matrix42-standard) ordering process.
- Direct communication between the DRACOON API and Matrix42 Workspace

Management.

- Ready for use immediately after installation.
- Central Administration is included in the scope of delivery.

## Use cases

- Data rooms, user permissions and accounts can be ordered centrally and automatically via the usual services.
- Multi-level approvals of authorisations can be easily carried out with the Matrix42 Workflow.
- Individual provisioning workflows, such as assigning several authorisations simultaneously, are easily possible through the interface to Matrix42.

## Recommendations for the implementation of this product

This product is delivered on a turnkey basis.
