Extended Copy

Define actions to create copies of an object where specific attributes get preconfigured values.

Description

Extended Copy for **Matrix42 Workspace Management**

Extended Copy allows you as an administrator to define Actions that can copy any object to new objects conforming to a pre-defined template. You can freely specify which attributes you want to copy, whether you want to use prefixes, and whether there will be user interaction during copying.

Advantages are:

- Creating objects with meaningful attribute values
- Rapid creation of data that satisfy integrity criteria
- One implementation for numerous copying definitions

Sample objects that can be copied are Roles, Users, Accounts etc.

Installation is done [via the Matrix42 Extension Gallery](#).

The manual can be found [here](#).
