

MATRIX42 MARKETPLACE-PRODUKTE

Imbit SophosMobile Konnektor

Holen Sie sich mit der Integration von **Sophos Mobile** in den Matrix42 Service Store ganz einfach umfangreiche Geräteinformationen ins Asset Management!

Nicht kompatibel mit Sophos Central

Beschreibung

Imbit Sophos Mobile Konnektor

Der **Imbit Sophos Mobile Konnektor** ist eine Erweiterung des Matrix42 Service Store. Er baut eine Verbindung zu einer Instanz Von Sophos Mobile auf und ruft darüber Informationen ganz im Sinne eines Datenproviders ab.

Sophos Mobile ist ein Softwareprodukt zur Verwaltung von Mobilgeräten. Diese werden einfach bei einer Instanz von Sophos Mobile registriert und tauschen in der Folge Informationen mit dem System aus. Diese und weitere Informationen aus dem System lassen sich über einen Webservice abrufen. Hier kommt der Imbit Sophos Mobile Konnektor ins Spiel.

Über den Webservice werden die Informationen vom Imbit Sophos Mobile Konnektor abgerufen, verarbeitet und zur Aktualisierung der Daten im Asset Management verwendet. Zu den erhobenen Daten zählen:

- der **Name** des Mobilgerätes
- die **Beschreibung**
- **Zugehörigkeit**
- **Seriennummer**
- **IMEI**

- **Betriebssystem** (Plattform und Version)
- Verzeichnis der Installierten **Anwendungen**

Eine **Email-Adresse** wird ebenfalls abgefragt und für die Zuordnung der Geräte zu **Hauptbenutzern** verwendet. Außerdem werden **Telefonnummer, Mobilfunkbetreiber** und **SIM Seriennummer** für SIM Karten Assets verwendet.

Beispiel

Bei Sophos Mobile registriertes Mobilgerät:
