Handout and Return Protocol

The Addon Handout and Return Protocol supports you to optimize and complete processes such as employee entry and exit, it increases the quality of the asset portfolio and creates liabilities.

Description

The Addon Handout and Return Protocol supports you to optimize and complete processes such as employee entry and exit, it increases the quality of the asset portfolio and creates liabilities.

The Handout and Return Protocol contains the most important information of an asset as well as the affected main user and can be created, printed and handed out to the employee for an individual asset or for all assets of a person directly from the Matrix42 IT Software Asset Management Suite.

Important hint: AddOns are implemented on the customer system by Cubefinity after ordering and coordination of dates with the customer. Therefore no downloads are stored!
